

A1CNow®

Self Check

Could Your Patients Benefit from At-Home A1C Testing?

A1CNow®

Self Check

Some people with diabetes cannot get lab work done every 3 months due to scheduling or financial difficulties.¹

With A1CNow Self Check, healthcare providers can still offer those patients the benefits of regular A1C testing at home.

A1CNow Self Check Features:

- Results in 5 minutes
- Compact and battery-powered
- Small (5 µL) fingerstick blood sample
- No maintenance
- Affordable and easy-to-use
- Saves time traveling back and forth from in-office visits and lab appointments²

Results You Can Trust:

- NGSP-certified
- IFCC-certified
- CLIA-waived

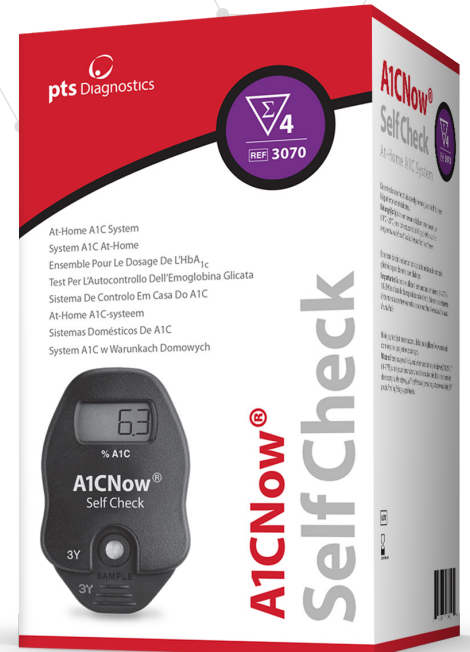

Test Kit Includes:

- 1 – Patented analyzer
- 4 – Test cartridges
- 4 – Lancets
- 4 – Blood collectors & shakers

Where to Buy

Through its large distribution network, PTS Diagnostics serves patients and healthcare providers all over the world.
